It will also give you the teaching skills you need to become an effective and magnetic teacher who attracts students back to your classes time and time again.

Accreditation

This course is suitable for those from every yoga tradition. Some yoga experience is necessary to start the course and an interview is required for acceptance to the course. It is **not necessary** to be at a particular level in your own fitness or asana practice. You'll find that over the year your yoga body will develop magnificently in any case as you develop and expand upon your personal practice.

This course is registered and recognised with the **Yoga Teachers' Association of Australia (YTTA)**. On completion of this course, you'll receive national recognition as a Full Member (Level 1) yoga teacher, having completed 360 hours of training. You'll be recognized by employers and eligible for insurance cover to safely teach. In fact, you'll have your own insurance to be able to be paid for your teaching before you even graduate.

Some comments from past students:

"The weekend workshops are great for connecting with the other students and getting support and sharing fears!"

"All the teachers are enthusiastic and open with their advice."

"My favourite thing about the course has been the flexibility in terms of understanding work commitments."

"Firstly I would like to say a personal thank you to you, Christina, you have been a great source of inspiration to me. When I really needed guidance, in your naturally understated way, you were really there for me. I didn't realise that this yogic journey would be such an amazingly deep experience. I really have a deeper connection with myself and have traversed the wounds to come out stronger. Your wisdom was very apparent, now that I have been through it."

"It has been on the whole fantastic. The course set up was perfect for me. I was able to meet the commitments most of the time, and to have an option when things go haywire has also been available to me. As a sole parent with a daughter with learning difficulties, a full time worker, and all the rest, a whole big life, I found the course structured enough and flexible enough to include my life also in the learning. Time frame was good for me also."

The Training Consists of:

(All included in cost unless stated. See next page for more details on each component.)

- Monthly 4 or 8 hour weekend workshops over 11 months developing skills and experience by comprehensively covering Asana, Teaching Methodology, Yogic Physiology, Philosophy, Ethics, Lifestyle, Communication & Counseling skills for yoga teachers.

“I have felt very supported and enthusiastic after each weekend session.”

“The weekend workshops are a great environment in which to ask questions”

- 90 hours of General Class Attendance (taken at times to suit you over the year. These hours are included in training fees). If you wish, these classes can be commenced on receiving your deposit and first fee installment.

“I have evened up slightly in terms of flexibility. I have become more comfortable with my body and what it can and can't do”

“I have learnt a lot about myself and yoga.”

- 4 fascinating weekend workshops on Applied Anatomy & Physiology for Yoga Teachers.
- A 50 hours apprenticeship. This teaching practice guaranteed to grow your competence so you'll be a confident and inspiring teacher when it's your turn to lead classes. First, you'll spend several classes observing our regular classes in session, getting a sense of class structures, how much bodies vary and you'll assist our teachers with adjustments you've been trained in. Then you'll move on to teach special teacher trainee classes (all at times to suit you). This component does not need to be completed within one year and may be stretched out into 2011 if your schedule necessitates. Previous teacher trainees have found this skill development and experience fantastic in developing them into effective and exceptional yoga teachers.

“I love it so much more than I thought I would. Many things are becoming obvious that I need to learn.”

“My favourite thing is the adjusting classes – making that connection with some students already and the support of the other teacher trainers – there is no ego and I feel like we are all in this together”

- One weekend yoga retreat, held at a venue close to Sydney (not included in course fee).

“The retreat, and making time for yoga have been two of my favorite things about the course”

- Some at home yoga practice (45 hours logged in your practice book over 12 months) plus reading, study, assignment writing and two at home open book exams.

Over 20 years, she has enjoyed extensive study and practice of a broad range of traditions including: Viniyoga (yoga of the heart), Astanga Vinyasa, Iyengar, Satyananda, Sivananda, Anusara, Synergy, the Vanda Scaravelli tradition and yoga therapy training. Christina is the author of several books: *Yoga - A System for Harmonising the Mind, Body and Spirit*, *The Ayurvedic Year*, *The Book of Yoga* a 10 Minute Yoga, and *Quick and Easy Yoga*.

She wrote the bestselling *The Yoga Bible: The Definitive Guide to Yoga Postures*, which has been translated into over ten languages and is still the bestselling yoga book in Australia. Christina continues to expand her practice with a broad range of study intensives; from meditation retreats to working with visiting yoga teachers.

Richard Allen has a background of Iyengar, Ashtanga and Jivamukti yoga. With 21 years experience on the mat, he is invited to teach in New York at the Jivamukti Yoga Teacher Trainings. Passionate about yoga, Richard embodies his practice beautifully. Richard is a keen student of spiritual and Yogic texts. He has completed a PhD in creative arts focusing on yogic spirituality in relation to art practice, culminating in the release of his latest publication, the book *The Kamikaze Mind*.

Life Source Teacher Training Dates & Fees – February 2010 intake

Dates

Course dates will be finalized towards the end of 2009. For those wanting to organize themselves a longer holiday during the year, the workshops are spaced out so that it is actually easy to book yourself a three week block away and not miss any of the course, particularly from May – August 2010.

Course Fees

The training fee is \$4,950 - \$5,830 depending on how you wish to pay. This includes all weekend training workshops and all required general class attendance (valued at \$1630) through the year. The training fee excludes the yoga retreat (around \$420 for accommodation, meals and yoga all inclusive) and the cost of text books (allow around \$200 through the year).

From previous years we have had keen students start to earn their money back by taking paid work before they even graduate, and so it's possible some fees may become tax deductible – ask your accountant about this, especially if you are in a related industry from the outset.

The enrollment fee is \$500. This fee is fully refundable from your last term's fee.
